

RC DUSTER'S TAILSPIN

Volume 5, Issue 11

November 2008

From the Office of the R/C Dusters – October

On Sunday before Thanksgiving, November 23rd at noon, we are going to get together for hot chili and hopefully some late season flying. Weather is not factor; if we cannot fly, we will still eat.

Several members have already volunteered to bring chili, but if you have a favorite recipe and you would like to share, please call me so we can coordinate. We will provide bowls, spoons, oyster crackers, and hot sauce. You will need to bring your own drink.

As usual, I will bring coffee and cake. If anyone has a camp stove, please call me. That would keep the chili hot. Let's have a good turnout.

See you there!

Lee Ernest
President

CLUB MEETING
SANDWICH PARK DISTRICT
NOVEMBER 12TH, 7:00 PM
DON'T BE LATE!!!

Minutes from October

Meeting October 8th at the park district. Called to order at 7:00 pm by President Lee Ernest. Secretary report as printed in the newsletter. Treasurer report by Treasurer Bill Brubaker. It was approved as read. There was no correspondence.

There was some discussion on the Burr Ridge swap meet, but there was not a whole lot there. Under old business, Lee noted the fun-fly was a great success! The weather was good. Everything went well. A big hand for Marty for the great shape the field was in. Lee noted that he had five more winter caps left if anyone wants one.

Under new business, the subject of a fall chili fun-fly was brought up. It was decided that there will be one for sure this fall. It should be sometime before Thanksgiving and the weekend before, November 23rd was decided on. It will be held rain or shine, warm or cold!! Steve suggested that on the gravel stretch from the blacktop to the field, we drive slowly to keep the dust down in front of the houses. Also Marty noted that they have some dogs and we wouldn't want to hit one of them.

It was suggested that we buy a Realflight G3.5 and raffle it off. Most members already have a 3.5 or a G4, so tickets would be hard to sell. Idea was scrapped for now. There was a new member, Al Schilling present and was welcomed in. Lee noted the Hobby Expo was coming up Oct. 18th and 19th. You can get in free with your AMA card. He also stated that if you go Sunday, some dealers will sell their display models cheap to get rid of them.

RC DUSTER'S TAILSPIN FUN FACT

Skywriting:

The best conditions of course are few clouds, little or no wind, and cooler temperatures. Then the letters may be seen for 30 miles in any direction and can last 20 minutes.

Minutes Con't.

Thanks went to Gerry for the great job of
cooking at the fun-fly!! No more business was
brought up.

Show & tell! Steve had an E-Flight Pitts
model 12 electric biplane. It is a "25" size
plane. And is a scale of a real one that is
hangered at the Joliet. Didn't have it with, but
Gerry has finished a Hanger 9 Fokker DVII. It
has a Saito 80 in it and fly's great. There was
discussion on what other members are
working on. Several have projects going!!
Meeting adjourned at 7:35.

Respectfully submitted,
Dave Erlenbach -Sec.

More Items 4 – Sale

Hangar 9 27% CAP232 80" wing span, G62 gas engine, 5 futaba servos on control surfaces, 1JR on throttle, 1 Hitec on kill switch. The plane has unlimited vertical climb, and is a smooth IMAC plane. The engine hand starts easily and best of all it never quits. All the above for \$750.

I also just finished a brand new Super Sporster 90/120 72" wingspan. It has a new ASP120 four stroke engine. it just needs your radio gear and it's ready to fly. Plane, motor, prop and spinner for \$300.
